## Communication:

## A system for transmitting information

Robo-Call: (aka Reverse Call, Call-All, Quick Call, etc) whatever you call it; it works and its popular!

Our Robo-Call reaches your community in a single call. Inform residents of emergencies, work going on, meetings, snow events or just a simple holiday greeting!

E-Blaster: (emails for all)

Much like the Robo-Call, E-Blaster is a quick easy way to get information to your residents, owners and tenants alike!

## Community Web Site:

Take advantage of your own community web site and owners have access to minutes, governing documents and an on-line service to pay maintenance fees. Many of our associations use the web site to post important news and answers to life in a community association.
